QinetiQ North America is a prime contractor on the Department of Homeland Security’s Tactical Communications and Services contract (HSSS01-12-D-0012).

Under the Department of Homeland Security’s (DHS) Tactical Communications and Services contract, QinetiQ North America (QNA) holds a prime position in the Operations and Maintenance Services unrestricted category (TC4). The Tactical Communications and Services contract is available for use by DHS, as well as other U.S. Federal Civilian agencies to include the Department of Interior, Department of Justice, Department of State and The White House Communications Agency.

**Broad Technical Expertise**

Team QNA offers full Land Mobile Radio (LMR) and Voice over Internet Protocol (VoIP) network maintenance and support to DHS and its 22 bureau directorates, as well as a number of other U.S. Federal Civilian agencies. Through a deep knowledge and understanding of tactical communications requirements, Team QNA currently supports the Arizona Tactical Communications Upgrade (ATCU) project for Customs and Border Protection (CBP). This successful project is the largest P25-complaint LMR project in size and scope ever undertaken by DHS. Team QNA is responsible for migrating all outdated legacy analog mobile radios for Immigration and Customs Enforcement (ICE) and CBP to a Motorola integrated voice and global positioning system data network, implementing the Vote Scan P25 technology.

These support services include:
- Proactive modernization of the network
- Integration of emerging technologies
- Requirements analysis
- Design and build of network systems
- Security architecture
- Documentation
- Certification and accreditation
- Network performance engineering
- Sustainment engineering
- Release management
- Network disaster recovery planning
- Operational and help desk support 24/7/365

**QNA Teammates**

- ARINC Engineering Services, LLC
- Computer World Services Corp
- Intelect Corporation
- Information Technology Solution Acquisition & Management, Inc. (ITSAMI)
- LinQuest Corporation
- NextPoint Group
- Northrop Grumman
- Sage Systems Technology, LLC
- SCI Consulting Services, Inc.
- The Logistics Company, Inc.
- Veteran Enterprise Technology Services, LLC (VETS)
- JTD Consulting Inc., DBA Wireless Infrastructure Services
- Wireless Solutions, LLC

Team QNA provides a broad range of enterprise engineering and support services to numerous federal government customers. We have a nationwide presence that allows our engineers to work across the network infrastructure lifecycle to support new voice and data network architectures based on emerging technologies and the information technology needs of network users.
About QinetiQ North America

QinetiQ North America (QNA) is a subsidiary of QinetiQ Group plc, the FTSE250 company listed on the London Stock Exchange (LSE:QQ.L). Operating in North America, QNA delivers world-class technology, responsive services, and innovative solutions for global markets, focusing on U.S. government and commercial customers. Its engineers, scientists and other professionals deliver high quality products and services that leverage detailed mission knowledge and proven, reliable tools and methodologies to meet the rapidly changing demands of national defense, homeland security and information assurance customers.
